# The Call

---

Failure is not part of you,  
Sorrow should never attach itself to you.  
Although it may linger for a time, it will cease.  
Although the waves of life may overwhelm you,  
they will be still.

Joy like a river,  
Acceptance like no other,  
This is what my Father can give to you today.  
Only if you will accept his call.

# Making the right decision

New beginnings can scare us especially when we are unsure of our directions, and we are at a crossroads. Some choices are life-changing, and others are small diversions. Whichever one we choose we need to ask for Wisdom to deal with them and pick the right ones. There is a HALT acronym used for Hungry, Angry, Alone, and Tired. We shouldn't make decisions on these emotions as they won't lead to the right outcomes. Instead, we should wait until we are in a better place to make a decision. Easier said than done, especially when we have things to get off our chest. But the point is, in all these emotions we tend to be a bit more irrational and may regret decisions we make during the moment. So how do we make the right decisions?

## 1) Seek Wisdom

James 1:5 New International Version (NIV)

5 If any of you lacks wisdom, you should ask God, who gives generously to all without finding fault, and it will be given to you. Wisdom comes from God, if we lack it, we need to ask God to give us more so that we can handle situations better. But all this comes when we accept God as our God and accept that he is great and all-powerful. And in this, we are able to make the right decisions. We won't be going by temperamental feelings that the last couple of hours but instead, we will be trusting a God who is all-knowing and all-powerful. We can just about get a sense of the future but he knows where we will end up in the end

## 2) Pray

The Bible informs us to pray without ceasing. And he also tells us to make our request known to him. We need to pray and communicate with God about what we need, especially when it comes to guidance. But the important part of prayer is listening. It is a two-way conversation between you and him. God isn't Father Christmas that just gives you all you need. God cares about you because you are his son/daughter. By listening to him in prayer you will be able to hear his voice and feel his presence. All this comes from allowing the Holy Spirit to dwell in us and praying for this spirit of discernment.

Imagine hearing static while trying to listen to a pin drop in a quiet room. It's difficult, right? And that's how it may sound in our heads. Our flesh will be saying one thing while the devil will be saying the other and God is saying the rest. You need the filter and that comes through the Holy Spirit.

It takes time but when you made the word of God your daily bread and you start to open your heart to him, you'll soon be able to hear him better and make the right decisions.

A photograph of a person standing on a yellow combine harvester in a vast field of green crops. The scene is captured at sunset, with a warm, golden light illuminating the landscape. The harvester is moving through the field, leaving tracks in the soil. The person is positioned on the upper deck of the machine, looking towards the camera. The background shows a long, straight path of crops leading to the horizon under a clear sky.

# ○ HOW I WISH

○ how I wish,  
We'll look around us  
And see  
That the harvest is ripe

○ how I wish,  
We'd see  
That the sickle is already sharp  
Ready for the harvest

○ how I wish,  
We'd know  
That the wheat and chaff  
Are being threshed and sifted

○ how I wish,  
We'd be  
Among the farmers  
Sent to gather the harvest

# THE STRUGGLE

With toil and sweat, man strives to eat  
Sometimes, his belly is satisfied  
Other times, it growls for more  
Hence, his need to stand up at dawn  
Oh, if only the skies poured its rains  
Oh, if only it wasn't hard to till the ground  
Maybe life would have been easy,  
So he tries again and again,  
Time after time,  
Season after season,  
He prays to God that his fruit yield  
So he could help his household,  
It is written in the Holy Book,  
"Cast your bread upon many waters"  
That he has done, and pray for the best  
Hoping he'll get enough to give his wife  
Hoping his kids will be satisfied  
For this will be his satisfaction,  
And the reward for his turmoil  
So he strives again tomorrow...

# Learn to Wait Upon the Lord

Faith is the main ingredient every believer needs in order to receive from God. When it comes to waiting it can sometimes lead us to lose our faith balance and instead push us to rely on other things to keep us stable even if it is only for a moment. However, it is only through faith we can remain standing in the season of waiting and see for ourselves God's promises come to pass in our situation and reap a greater development in our faith walk with the Lord.

As we wait on God you are bound to come into contact with distractions, but it is up to you to entertain them or not. We can maintain our focus by surrounding ourselves with faith-building communities, friends or family and by filling our minds in the Word of God and spending time with Him in prayer. By doing so it'll be easier to recognise a distraction and effectively handle it the moment it pops up

Trust is hard to grow in any relationship and for many may never grow at all purely due to past failed associations. Nevertheless, trust plays a vital role in every relationship, as it builds and strengthens individuals and places a level of dependability. We can develop our trust in God by continually following His lead and witnessing the results of our obedience to Him first through small matters and eventually bigger circumstances. Therefore, trust can only grow through our willingness to take the next step forward.

# What God Does in Small Beginnings

Deep within the Ancient Basin lies a number of secrets that unlock the mysteries scattered throughout the universe. With one stroke of a brush and a clever mind, Angelia Pelham is the second in her generation to ever attempt to uncover the phenomena's held behind the Basins door.

Angelia is one who has studied the walk of the ancients for many years, throughout her journeys she has encountered a plethora of trinkets from those who've tread upon the Earth long ago. Her adventure into this path has only just begun, as she lifts up her brush in pride knowing well her parents watch on from above.
